OWLS WIN DISTRICT CHAMPION- SHIP; PLAY CUERO FOR BI- DISTRICT HERE TONIGHT

The Hondo Owls defeated the
carnal Mavericks here Friday night
10-13 to win the district champion-
ship of 37A, which entitles them to
play Cuero for the bi-district cham-
pionship.

The site of the game has been set
at Hondo on Friday night, December
4, on Barry Field at 8 P. M.

The Cuero Gobblers were runners-
up in their district last year but were
defeated in the finals by Kennedy
for the championship. The Gobblers
came up this year with another good
team and this time were not to be
denied the championship. They have
a fine record for this season with
an experienced bunch of boys who
are fast and rugged. The Gobblers
have scored 111 points to their
opponents' 32 and dropped only one
game to Canado 7-0 early in the sea-
son.

The Hondo Owls are defending
champions of 37A and also defend-
ing bi-district champions, having de-
feated Kennedy last year 13-0 for
bi-district honors, going on to the
regional to be defeated by a fine
Mission team 33-0.

The Owls lost heavily from gradu-
ation last year and came up this
year with only two regulars. The
squad is young and inexperienced
but has managed to gain momentum
as the season progressed until it has
developed into a fine ball club. The
Owls have scored 155 points to their
opponents' 31 and dropped two
games early in the season to Pear-
sall and Eagle Pass.

On paper the teams look fairly
evenly matched with Cuero having
the edge on weight.

The Cuero Gobblers are traveling
by bus and will arrive in San An-
tonio Thursday, spend the night
there and arrive in Hondo this (Fri-
day) afternoon. Coach Padgett has
made reservations with the Favorite
Cafe to feed his party.

Officials for the Owls-Gobblers bi-
district championship game will be
Gene Bedford, referee; A. R. Harri-
son, umpire; Nemo Herrera, head
linesman, and Roy Selby, field judge.

Starting line-ups are as follows:

9 BILLION VICTORY DRIVE OPENS

WASHINGTON, Nov. 30.—(AP)—
With the theme song changed from
defense to victory, Uncle Sam open-
ed fire on the home front today with
the biggest war financing campaign
in world history.

To meeting steadily increasing
war costs, the treasury will borrow
\$9,000,000,000 during the month—
getting a large portion of it from is-
surance of three new-type treasury
securities which Secretary Morgenthau
termed "adapted for every type of
investor."

The new Victory securities, two
bonds and one certificate, go on sale
today and will remain open to pur-
chasers for several weeks, the treas-
ury said. The bonds range from
\$500 to \$100,000 in denominations
and certificates from \$1000 to
\$100,000.

In addition to the three new se-
curities, the \$9,000,000,000 will be
raised from sale of war bonds and
tax savings notes.

The big display announcement of
this drive appearing elsewhere in this
paper is sponsored by the Hondo Na-
tional Bank, where all interested
parties can secure any wanted infor-
mation about the securities.

der the direction of Miss Evelyn
Woodley and accompanied by Mrs.
R. C. Rath.

The occasion will mark the annual

riage to Sgt. Lee Dell Williams.

Six enlisted men from the Army

SOLDIERS HIT JACKPOT ON THANKSGIVING DINNER

The average man at Hondo Army
Air field loosened his belt at least
two and one-half inches on Thanks-
giving day.

That the holiday dinner at the air
field was abundant and included the
delicacies typical of the seasonal oc-
casion is evidenced in figures on food
consumption Thanksgiving day re-
leased by Lt. William C. Dove, com-
missary sales officer.

Lt. Dove reported a total of 6,105
pounds of turkey served. In addi-
tion, 1,500 pounds of Virginia baked

er. Mr. Mueller, a 1941 graduate
of the University of Michigan, was in
charge of musical activities in the
Corpus Christi, Tex., school system
before his enlistment last year as a
member of the Army Air Forces
Gulf Coast Training center band,
Randolph Field, Texas.

He was selected to attend the
Army Band Leaders' school at Fort
Meyers, Va., and was appointed war-
rant officer November 1, 1942, up-
on completion of the course.

DANCE ORCHESTRA IN THE MAKING?

A promise of more enjoyable
evenings for the men of the Army
Air Forces Navigation school here is
in the air with the announcement
that the long hoped for dance or-
chestra, made up of musicians on the
post, has been formed under the di-
rection of Sgt. Douglas W. Ackley.

The new dance unit has been han-
dicapped by the lack of necessary in-
struments, but the problem has been
overcome as the resourceful music
makers wired and wrote home to
have their horns and drums and
basses taken from what had prom-
ised to be their "duration and six
months" riding places. As soon as
the instruments arrive, the newly
waxed floors of the enlisted mens'
Service Club will be the scene of
many a Saturday night dance ses-
sion for soldiers, mechanics and civil
service workers on the field.

The thirteen-piece band, which
will consist of three trumpets, two
trombones, four saxes, piano, bass,
drums, and guitar, will have in ad-
dition a male vocalist, Pvt. Allen Roy
of the 836th School Squadron.

LEADING MEMBERS OF CLASS 42-17 NAMED OFFICERS OF NAVIGATION CADET DE- TACHMENT

Cadet officer system employed at
the Army Air Forces Navigation
School here has been set up for class
42-17, and the student officers of
the aviation cadet detachment were
announced this week by Major Dale
R. Harmon, commandant of cadets.

In recognition of superior qualities
of leadership and scholarship, out-
standing students are named to serve
as cadet officers, the system func-
tioning under the supervision of com-
missioned officers, until the class is
graduated. After 15 weeks of in-
tensive training, they receive their
navigators' wings and commissions
as second lieutenants in the Army
Air Forces.

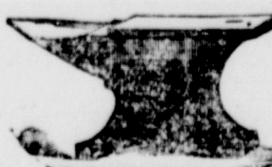

Backbone of the system is disci-
pline, which develops the teamwork
and efficiency essential to successful
combat operations in the air.

Heading the selected group of
leaders is Cadet George Joseph
Krause, 25, of New York City, a
clerk for an architectural firm in ci-
vilian life and a corporal in the regu-
lar army prior to his appointment
as an Air Force navigation cadet.
Cadet Krause has been named stu-
dent colonel of the detachment.

Serving as lieutenant colonel is
Cadet J. G. Fitzhugh, 26, of McKees-
port, Pa., who in civilian life was an
employee of a steel company. A
graduate of Franklin and Marshall
college, Lancaster, Pa., he served in
the Field Artillery before coming
here.

Other officers follow:
Majors—Cadets W. C. Bailey,
Charlottesville, Pa.; George L. Knapp,
New York City, and D. F. Payne of
Paragould, Ark., commanders of
Groups 1, 2 and 3, respectively.

WILL VOTE FOR PURCHASE OF LIGHTING SYSTEM

No man is more uncompromis-
singly opposed to socialism in
all its forms than the managing
editor of this paper.

We believe where private en-
terprise can operate any busi-
ness satisfactorily to those it
serves government should keep
out of business.

Yet we shall vote next Mon-
day, December 7th, to put the
municipality of Hondo in the
electric light and power busi-
ness.

A preferable course, to our
way of thinking, would be for
local capital—either private, co-
operative or corporate—to
take over the system in prefer-
ence to putting the municipality
in the business.

But there seems to be no
such possibility.

The system now belongs to
the City of San Antonio, and
will remain its property if the
voters turn down the proposal
to have Hondo purchase the
same.

So we already have municipal
socialism insofar as our lighting
system is concerned.

And in a choice between for-
eign control—by the municipali-
ty of San Antonio—and local
control—by our own home town
of Hondo—we prefer to choose
Hondo.

If anybody knows a better,
safer course—show us the way!

David Williams of the local air field, together with the homefolk, that enjoyed a family reunion Thanksgiving dinner at the home of their mother, Mrs. Williams. Sgt. and Mrs. Williams left Sunday, the 29th, for his station at Bremerton, Washington.

Mr. A. Esser, the veteran insurance and real estate man, was here from D'Hanis Wednesday on business and paid the editor a call. Mr. Esser is not a farmer nor even a truck-grower, but he had with him a this season's horseradish plant—the first this writer has seen since his boyhood days when he used to find them wild in the woods of Mississippi. Mr. Esser says the plant has wonderful medicinal properties.

Julius Hutzler of Rio Medina and his mother, Mrs. Ed Hutzler, were visitors to Hondo the first of the week. While here Mr. Hutzler called at this office to have his mother's paper sent to her at Rio Medina, she accompanying him to make her home with him for the present.

Mrs. Myrtle Williams suffered a painful injury to the second finger of her right hand by getting it caught in a washing machine. She narrowly escaped the loss of the first joint, but the doctor thinks it will heal without serious permanent injury.

Miss Catherine Bohlner of San Antonio spent Saturday and Sunday with her aunt, Mrs. Mary Cook, and also visited her brother, David Bohlner of Del Rio, who is stationed at the Hondo field.

Meat inspectors are needed for Federal employment. Both men and women are wanted. Those appointed will assist with the inspection of meat and meat food products in slaughtering and meat packing establishments. Positions pay \$1,620 a year, and exist throughout the United States. QUIRKY NOTES

Typical fall weather. Somewhat unbalanced. Undecided whether to go back to summer or usher in winter. The mornings push the mercury down to the frost and freeze point and around noon it climbs in the seventies and eighties, often distance of 40-50 degrees. Hard frost's temperature to scampers along at equal pace. The tractors seem to enjoy it. They are roughing up coughing it in their hoarse chuckle and night. Cloudy skies with heavy showers are preferable to clear blue. Such is the wish of the farmers and stockmen and the glimmering verdant fields.

Mr. Adelphi Grell is still confined to the local hospital, but steadily improving. At the home of close friends, Mr. and Mrs. Henry Schulte Jr., Mr. Grell is anxiously awaiting the mending of a broken bone. The hour has arrived. He went back to San Antonio, his home, and Mr. W. Poehner, we hope, back to work by this time. Bedriddenness is not his particular hobby, he had to go through with it for several days.

And down from the "mountain" came Mr. and Mrs. Elmer Spott. They have their baby-daughter baptized the sacrament instituted for the purpose. They had agreed on the names of Elmira Jean. For sponsors they had invited Mr. and Mrs. Herbert Reiter. A child of God may she always be; the highest position one can hold in this confessional world.

How fast the days fly for a young soldier on a furlough. Every day is a festive privilege. Mr. Lewis Boehle knows of it while staying with his folks, Mr. and Mrs. George Boehle. We were glad to see him among the worshippers and on home premises.

Announcements for December Sunday school and Bible class at 11. Bring your children to take part in the Christmas program. They will be thankful to you. Councilmen meet for December 13: Sunday school and Bible class as usual; English at 11. German service at 8. P. M. Luther League program at 8. Sunday school teachers meet. A hearty invitation come and join us.

THE OLD JUDGE SAYS...

"I couldn't help overhearing you, Mary, when you asked Jim why they let the liquor companies use sugar to make whiskey when all the rest of us have to cut down on it. I happen to know the answer to that.

"You see, the fact of the matter is, the industry never has used a single pound of sugar to make whiskey. The bootleggers were the only ones who used sugar to make whiskey. On top of that, there's not a single

large distillery in the country making whiskey any more. They're all working day and night making war alcohol for the government for gunpowder, synthetic rubber, chemicals, and medical supplies.

"Just as I told Ed down at the courthouse this morning, the government simply wouldn't be able to get all this alcohol it needs in time if we didn't have these distilleries available and on the job."

HONDO, TEXAS, DEC. 4, 1942

Washington Snapshots

by JAMES PRESTON

All statements and opinions in this column are Mr. Pearson's own and do not necessarily represent those of this paper.—M. E.

The immediate future is described here as the era of the vanishing civilian. Two major developments make this condition inevitable. One is the early imposition of drastic regulations curtailing, even banning cross hauling. The other is the Controlled Materials Plan, the full application of which is almost certain to leave only those materials for essential civilian industry that the armed services permit. It is ironclad control destined to skim off all fat and possibly some muscle.

—WSS—
Meetings are now being held to determine the minimum level of essential civilian production. All that is allotted to civilian production must conform to simplification and standardization program decreed for civilian industry. A sunburst of simplification orders was recently released by WPB. 1943 fashion admits no frills.

—WSS—
The six-weeks War Bond drive starting November 15 will be the greatest publicity drive in history. Treasury officials predict. Success or failure means voluntary or compulsory savings after January.

—WSS—
According to Chairman Davis, the WLD will not approve any wage or salary increases in the rates prevailing on September 15, 1942, unless such increases are necessary to correct maladjustments or inequities, to eliminate substandards of living, to correct gross inequalities, or to aid in the effective prosecution of the war. "The Little Steel formula," Chairman Davis said, "will be rather strictly interpreted and raised above that will be few."

—WSS—
Engineers, scientists, technicians, and inventors now in private industry will be asked by WPB to assist the War Department in a new program to redesign and improve war weapons with a view to saving critical materials, machines, and manpower. The Army believes considerable savings can be achieved by applying tested methods and skills acquired by men engaged in competitive private enterprise.

—WSS—
The War Manpower Commission is studying plans for importing workers from Cuba and Puerto Rico and is also working on a program which will provide for handling manpower and draft problems on a plant-by-plant basis. The plant-by-plant program, developed jointly by the WMC and Selective Service System, provides for the establishment of "manning tables" on which would be charted the labor needs of a plant, the necessary deferments of essential workers from the draft, and the subsequently orderly withdrawal of workers from the plant for military duty.

—WSS—
According to the Bureau of Labor Statistics the number of workers involved in strikes and the amount of idleness resulting continued through September at August levels. The number of strikes in September was 23 per cent greater than the average for the five-year pre-defense era.

LEINWEBER COMMUNITY H. D. CLUB NEWS

The Leinweber Community Home Demonstration Club met Wednesday afternoon, Nov. 25, at the home of Mrs. Ashbel Gilliam with seven members and Miss Velma Hambleton, our County Home Demonstration Agent, present.

The president presided with a short business session, then Miss Hambleton gave her report from the last Council meeting of the year, and also took the yearly census of the Club. Some Red Cross garments ready cut were divided among the members to sew.

In closing our first year of club work, since Miss Hambleton does not meet with her clubs in December, may we at this time give her our deepest appreciation and advance for another profitable year under her capable leadership.

The hostess served a delicious lunch after which the meeting adjourned.

The next meeting will be at the home of Mrs. George Koch on December 9, at 2 o'clock.

A summary of the past week's war events reviewed by The National Editorial Association Defense Advisory Committee in cooperation with the Office of Government Reports.

NOV. 23, 1942

President Roosevelt in a radio address said that "during the past two weeks we have had a great deal of good news and it would seem that the turning point of this war has at last been reached. But this is no time for exultation. There is no time for anything but fighting and working to win."

Navy Secretary Knox reported the following total damage inflicted on Japan in the Battle of the Solomons November 12-15: Sunk—2 battleships (1 may have been a heavy cruiser), 6 heavy cruisers, 2 light cruisers 6 destroyers, 8 transports, 1 large transport; Damaged—2 battleships, 1 cruiser, 7 destroyers. The Japanese lost between 20,000 and 40,000 troops, as well as large numbers of naval personnel. U. S. losses were 2 light cruisers and 6 destroyers sunk.

Mr. Knox said U. S. forces are in complete control of the area in and around Guadalcanal and "our hold on the island is very secure." The President said the battle is a major victory. War Secretary Stinson said Army aircraft from Australia and New Guinea played an active and effective role in the battle.

Joint headquarters in North Africa reported that American, British and French troops are driving into Tunisia from all sides, closing in a ring around the northeastern triangle of Bizerte and Tunis. The British First Army, reinforced by U. S. and French units, engaged Axis mechanized columns in Tunisia and drove them back, the War Department announced. Gen. MacArthur's headquarters reported November 21 that American and Australian forces are driving hard against the Japanese, who are pinned along the Northeastern coast of New Guinea between Buna and Gona on a narrow beach-head extending 20 miles along the coast and 6 miles inland.

Selective Service
President Roosevelt ordered registration for selective service for all young men who have reached the age of 18 since July 1, as follows: Those born July 1 to August 31, 1924, inclusive, to register the week beginning December 11; those born September 1 to October 31, 1924, to register December 18-24; those born November 1 to December 31, 1924, to register December 26-31. Young men reaching 18 after January 1 will register on their birthdays. Selective Service headquarters ordered distribution of questionnaires to 18 and 19-year old registrants, who will be inducted as their order numbers are reached.

"To make sure that no one who is really irreplaceable shall be separated from an essential position," the President ordered the Secretaries of War and Navy to "see to it that present government employees, who have been deferred, are not enlisted or commissioned, unless they can produce the approval of the head of their agency." Mr. Roosevelt said that after his order November 17 for cancellation of all deferments already made on the basis of federal service there was a rush of government employees to get into uniform. He said his new order should apply not only to the regular civilian employees of the government "but also to employees in Army arsenals and in Navy Yards and Navy shore establishments owned or operated by the United States."

The new manpower setup to be completed soon, the President said, would provide for deferment and prohibition of enlistment of men needed more urgently for war production than in the Army. More uniformity could be obtained from local draft boards, he said, by plant managers certifying to the boards cases of men who are irreplaceable and by more consultation between draft boards and war production employers.

The Armed Forces
Navy Surgeon General McIntire said Navy fatalities among the wounded at Guadalcanal are less than one percent, compared with an average of seven percent wounded in World War I—Due principally to use of new medical discoveries in treatment of wounds. The President appointed Brig. Gen. Frederick H. Osborn, Chief of Special Services of the War Department, as Chairman of a committee which will work out plans for post-war education of young men whose school years are interrupted by entrance into the

armed services. The President increased the maximum size of the WAAC from 25,000 to 150,000 women. More than 1,000,000 soldiers have applied for benefits on behalf of their families under the Service-men's Dependents' Allowance Act.

The Office of War Information announced 48,956 members of U. S. armed forces have been officially reported as killed, wounded, missing or prisoners since the war began—exclusive of the African campaign. The War and Navy Departments organized the United States of America Typhus Commission, headed by Rear Admiral Charles S. Stephenson, to "function as a board of strategy against typhus, the common foe of all armies and of all people."

Production
War Production Chairman Nelson announced aircraft production in 1943 has been fixed at more than double the 1942 output. At the same time he appointed a new top board of aircraft production supervision under the chairmanship of WPB Vice Chairman Charles E. Wilson. Mr. Nelson issued a statement asking war workers to stay on their jobs Thanksgiving Day. The WPB Small War Plants Division reported it has completed its operating organization and now has the staff necessary to carry out its work.

Farm Prices and Production
The WPB froze until March 6, 1943 one-half of the supply of cold storage butter in the 35 principle markets of the country—between 34 and 35 million pounds. Without regard to existing contracts, this butter may not be delivered except on specific permission by the WPB or to the armed forces, Lend-Lease, or other specified government agencies. The freeze order applies to any person in the 35 markets, who between November 6, 1942, and November 20, 1942, had any butter in his possession or under his control in any warehouse. He is required to set aside until March 6, 1943, 50 percent of the supply of butter he had on hand November 6 or November 20, whichever is higher.

The OPA set special price ceilings on turkeys sold direct to consumers by farmers and processors. Terms of Commodity Credit Corporation contracts offered to farmers in Wisconsin, Iowa, Indiana, Illinois, Minnesota and Kentucky for the production of 300,000 acres of hemp in 1943 were announced by the Agriculture Department. Contracts will be available at AAA county offices in a few weeks. Employment on farms November 1 totaled 10,879,000, a seasonal decline of about 1,600,000 persons during October and representing a much higher percentage of women, children and townpeople.

Rationing
The OPA cut the value of the basic A gasoline ration coupon from 4 to 3 gallons in the District of Columbia and 16 of the now-rationed eastern states. B and C books were not affected. Those motorists who, because of the change of the value of the A coupon, are unable to obtain "essential mileage" may now apply for supplemental rations. To allow motorists extra time in which to dispose of idle tires in excess of five per passenger car, the OPA postponed the deadline for idle tire turns until December 1. A total of 2,872,000 tires had been turned in by motorists at the close of business November 14.

War Finances
To finance the war effort, the Treasury will borrow during December the unprecedented sum of approximately \$9 Billion, Treasury Secretary Morgenthau announced. Twelve Victory Fund committees will launch an intensive sales campaign on November 30 on three series of offerings of new securities, with 44,000 volunteer workers soliciting subscriptions. At the same time the war savings staff, with its 300,000 volunteers, will intensify its drive to add at least 7 million more income-earners to those already investing regularly in war bonds through the payroll savings plan.

APPEAL ISSUED FOR FURNISH-
INGS FOR DAY ROOMS AT
ARMY POSTS

The newly-organized Alamo Chap-
ter of the Red Cross Camp and Hospi-
tal Service council, of which Mrs.
E. J. Leinweber of Hondo is a mem-
ber of the executive committee, is is-
suing a plea for furnishings to equip
day rooms at army posts in the San
Antonio area. Official request has
been made and the council designat-
ed as the channel through which
these supplies will reach the various
posts. Since the army makes no fi-
nancial provision for such recrea-
tion facilities, the public is asked to
contribute articles needed to furnish
these centers within military areas.

Anything that would add to the
comfort or pleasure of the boys in
camp will be acceptable. Among ar-
ticles needed are pianos, radios,
phonographs or other musical instru-
ments; games of all kinds; books
and magazines; athletic equipment;
tables, chairs, lamps, couches or other
furnishings; curtains, ashtrays or
any usable bric-a-brac; records and
sheet music.

The appeal is county-wide and
Mrs. Leinweber has appointed the
following committee members in
Hondo: Mrs. R. J. Reily, to work
through the Methodist church; Mrs.
J. M. Duncan, the Baptist church;
Mrs. Chas. J. Schuchle, Catholic, and
Mrs. Ben Oefinger, the Lutheran.
This appeal comes to the public
direct from our soldiers, through
military channels and the Red Cross.
Mrs. Leinweber and her commit-
tee hope that Medina County people
will recognize the magnitude of the
assignment and respond both gener-
ously and promptly.

THE MOST IMPORTANT ANNOUNCEMENT EVER MADE BY THE U. S. TREASURY DEPARTMENT

The 9 Billion Dollar Victory Loan Drive Is On!

This week the United States Government
begins the task of borrowing nine billion
dollars from accumulated savings and idle
funds in the next several weeks as an essen-
tial part of winning the war more quickly
and more completely.

During these critical weeks you probably
will be visited by a representative of one of
the securities firms or banks which are con-
tributing their time and effort—without
compensation of any kind—to the Victory
Fund Committee. He will explain to you,
for instance, the benefits that you can obtain
from the new Victory 2½'s—available for
the first time. Welcome him as a war
worker when he calls. If you miss him, ask
your banker or securities dealer for full

particulars. There is *no limit* to the amount
that you can purchase.

Today many American families are torn
apart. Millions have left their homes or their
jobs; thousands have given their lives and
many more are prepared to do so.

But the government, your government,
is not asking you to *give* anything to this
Nine Billion Dollar Drive. It is asking you
to *lend* it all of the money you can possibly
invest in what is the safest investment in
the world—at a good rate of interest.

When the Victory Fund representative
calls, please remember this: it is in your
own interest, as well as that of your country,
to listen to him—and to *invest*.

POST CHAPLAIN'S NOTES

By Lt. George W. Schardt.

At present many people are worried about gas rationing, which, we are told, is in reality rubber conservation. By now we are used to getting out our little stamp books when we buy sugar. So we shall also adjust ourselves to buying less gasoline and going to fewer places.

The American people are learning in these days that we can live without many comforts and luxuries. In fact, self-denial and sacrifice never has hurt anyone.

But why worry about things not worth worrying over when we compare them with other factors in life? Our men and sons in Africa certainly do not have everything they desire. They are face to face with the greatest sacrifice any man can make—namely, death itself.

Let us then be loyal and good citizens of a wonderful country. Let us remember not only Pearl Harbor but also Bataan, the Solomons, New Guinea, Africa, Stalingrad, Alamein, etc., and let us put our shoulders to the wheel to do our part, little though it may be, to bring victory and a just peace to the United Nations.

Above all let us not forget the Lord, His help, His sacrifice for the sins of the world, and in His strength keep on working and fighting for the treasures we hold dear, praying daily.

"Thy Kingdom come; Thy will be done."

Capt. Kellond, 30-year army man, new signal officer at Hondo Air Field

Capt. A. P. Kellond, a veteran army man with 30 years' service in the signal corps, has been named post signal officer for the Hondo Army Air Forces Navigation school.

He succeeds Lt. Col. Lloyd H. Benning, who this week was transferred to Maxwell Field, Alabama, to become signal officer for the AAF Southeast Training Center.

Captain Kellond rose from the ranks to achieve his army commission. An enlisted man from 1908 to 1917, he received a reserve commission in the signal corps during the last war. In September, 1917, he became a first lieutenant. His World War I tour of duty was in Honolulu, Hawaii, stationed at Schofield Barracks.

Discharged as a captain in July, 1919, a year later he re-enlisted as a sergeant in the signal corps and the next year was serving as a warrant officer. In September, 1941, his reserve commission was reactivated as America launched its intensive war preparedness program.

Captain Kellond's wife lives in San Antonio at 733 St. James street. His son, Arthur W. Kellond, won his pilot's wings at Kelly Field, Texas, in 1937, and is now a major in the Army Air Forces. A daughter, Miss Dorothy Kellond, 22, is in the Army nurse's corps.

HONDO CORPORAL TO APPEAR WITH SAN ANTONIO SYMPHONY

Cpl. Leon Goldstein, stationed at the Hondo Army Air Forces Navigation school, will appear with the 90-piece San Antonio Symphony orchestra in a concert presentation in the San Antonio Municipal auditorium Saturday night, beginning at 8:30 o'clock.

The 24-year-old Brooklyn violinist, formerly with Leopold Stokowski's All-American orchestra, will play with the first violin section.

Patricia Travers, noted girl violinist, will be featured at the concert.

Corporal Goldstein, who received his promotion to the non-commissioned officer rank last Monday night, is much in demand at the post as an entertainer and concert violinist. Modest and work-willing, the talented musician is a popular figure at the Service club, being assigned to the Special Services department.

VOTING IN WAR BOND SLOGAN CONTEST TO END SATURDAY

Voting in the post contest for the selection of the best U. S. war savings bond sales promotion slogan will end Saturday afternoon, Lt. Cecil Ozan, War Bond and insurance officer, announced today.

Balloting has been in progress for the past week. Ballot boxes are available in the Service club, P-X restaurant and Cadet P-X.

Voting is open to military and civilian personnel alike on the post. The contest was boiled down to the top four slogans before putting the issue to a post vote to decide the winner of a \$25 war bond.

CAPT. STAUDT, LT. OZAN ASSUME NEW DUTIES

First Lt. Cecil Ozan this week was appointed War Bond and insurance officer, relieving Capt. Thurman F. Staudt.

Captain Staudt was named assistant special services officers, and will devote practically his full time to the growing special services department.

Supervision of the bond and insurance department at the post will be an additional duty for Lieutenant Ozan, who retains his position as assistant personnel adjutant.

SERVICE CLUB CAGE COURT COMPLETED AND SEVERAL OUTDOOR COURTS BUILT

An extensive physical training program for the Hondo AAF Navigation school personnel is being developed—the newest step being the building of an indoor basketball court in the Service club.

The new court, 80 by 45 feet, was completed this week and squad practice sessions will get underway within the next week, according to Lieut. P. C. Limbacher, assistant director of physical training.

The court, having a fine hardwood floor, will also be used for staging dances.

Lieutenant Limbacher said he planned to organize a post basketball team to pit against teams from outside the air field. However, the initial schedule will call for an intersquad tournament.

A crew of carpenters the past few days has been at work building eight outdoor courts across the street south of the Service club, and most of these were put into use this week.

Previously the squadrons cagers have worked out in the Hondo High school gymnasium, through the courtesy of the high school officials.

Two soccer fields were completed this week on the athletic field west of the Service club and this game, new to the post, introduced. It is planned soon to offer horseshoe pitching and training in judo—the Americanized version of the famous Japanese art.

Plans are being formulated by Lieut. B. W. Rundell, post physical training director, which will put greater emphasis on physical training. Under tentative plans for the program enlargement, each enlisted man, regardless of duty, would be required to devote at least six hours a week to physical training.

The expanding program offers a well-rounded schedule of body-building and recreational activity, the training to be supervised and directed by officers, although much of the actual conduct and leadership of the classes and games being taken over by trained enlisted men.

LARGE CROWD TO SEE AGGIE COUGAR GAME DEC. 5th

San Antonio, Dec. 1.—The largest crowd in the history of Alamo Stadium is expected to view the major intersectional football game between Texas A. & M. College and Washington State at 2:30 p. m. Saturday, December 5, in San Antonio.

The Aggie-Cougar game will be one of the outstanding intersectional games played this season in San Antonio. The football rivalry between the two colleges began last year in Tacoma, Washington, when the Aggies won 7 to 0.

In a sense, Washington State is a sister college to A. & M. since, as a state supported institution, it occupies much the same position in Washington as A. & M. does in Texas.

The Cougars have marked up wins over Stanford, Oregon, Montana, Oregon State, Michigan State and Idaho. Although the Washington

State Cougars have rumbled through a winning season, marred by one defeat at the hands of Southern California, the Pacific Coast will not feel all is in order until honor by defeating A. & M.

The Aggies are equally determined to send Washington State away from San Antonio with the knowledge that the Southwest Conference brand of football is the country's top quality.

In spite of the Aggies' loss to University of Texas by a nose in closing minutes of the Thanksgiving game in Austin, the Aggies main a tough wily foe, and they going into Alamo Stadium with determination and a razed type of football which wins games.

With the last big intersectional game of the season shaping up as a major attraction, ticket sales have been booming. There are still a few good seats available at the principal Auditorium, Gutter, Potchernick's and Tankersley's San Antonio. Fans are urged to delay about getting their seats. Besides the large number expected for the game, reports from College Station indicate that up to 50% of the Aggie cadets will be hand for the game.

Regular Southwest Conference prices prevail, with reserved seats priced at \$2.50 and \$1.65, and general admission to civilians, \$1.10 to members of the armed forces.

AN APPRECIATION

I take this means of expressing thanks to the members of the Hondo Volunteer Fire Co. and to my neighbors for their prompt response to call for aid on the occasion of burning of my barn recently. Their efforts saved my adjoining property from destruction for which I am deeply grateful.

Respectfully,
HENRY BATO
